

Student of the Month has turned it around

HAVERHILL -- For the month of April, the spotlight shines on Joseph William Charron Jr., a junior majoring in CAD drafting at Whittier Regional Vocational Technical

High School. He has made “a remarkable turn-around, and earned high honors for the past two terms” said his guidance counselor Garry James. “I’m very proud of him.”

Charron said he was happy to receive the honor.

“It makes me feel like I’m a good kid, and the kid that gets good grades and doesn’t get in trouble anymore,” he said. “I’m not trying to be someone I’m not to be cool. I smartened up.”

He said he enjoys the benefits of attending a vocational-technical high school, including switching from academic classes to vocational every other week. He plans to attend a four-year college after graduating next year, he said.

Joe participates in many outside activities such as snowboarding and skim boarding, but dirt biking is his favorite. “I love dirt biking because it is extreme and I love it.”

He is the son of Pam Sevigney of Haverhill.
